Patient-Centered Dental Insurance Reforms That Connecticut Families Need

Connecticut dentists are committed to ensuring the well-being of our patients, and we serve them by helping them receive the best care and value from their dental insurance plans.

Is Your Dental Insurance Working for You, or for Insurance Executives?

Tell Lawmakers: **Patient dollars should go to patient care**, not to the profits of big dental insurance companies.

Help Connecticut families get the dental care they deserve.

- More Accessibility
- More Transparency
- More Value

During the 2024 Connecticut Legislative Session, CSDA is advocating for legislation that would ensure **at least 85% of patient premiums go to patient care**, while also putting an end to unfair tactics that insurance companies use to gain more revenue streams - *at the expense of dental care*.

60% UNCHECKED SPENDING

Astonishingly, as much as **60-percent of patient premium dollars currently go to administrative costs**, such as marketing, profits, and bonuses, instead of being directed toward patient care! That's out-of-whack. **CT residents deserve better.**
