

GKAS Treatment and Summary Report Instructions

Treatment Report

The GKAS Treatment form was designed for your convenience. This form gives the codes and fee schedule that are being used for data collection in our state. Please note: the fees listed may not be what your office charges for a particular service. If your office provides a treatment to a patient that is not on the list, please write it in the notes area of the form. Use 1 form for each patient. This form is for your records only.

Summary Report

The GKAS Summary Report form is the form that you will use to report to the CSDA the results of your GKAS program. Simply total all the procedures from the treatment forms and list them in the summary report. If there are procedures your office provided to a patient that are not on the list, please write it in the comments/additional treatment box at the lower right side of the form. Please be sure to answer the questions at the bottom of the form. E-mail the Summary Report form to: gkas@csda.com. You may also fax this report 860-378-1807.
