

Kevin McLaughlin
148 East Ave. Suite 2J
Norwalk, CT 06851

Letter of Intent:

I submit my name for nomination for Vice-President of the CSDA and as an ADA alternate/delegate.

I have been involved with organized dentistry since I was in dental school. After residency I worked in Pennsylvania for two years before coming back to Connecticut. I became involved in the Greater Norwalk Dental Society and the HOD in 1990. I was the on the Council on Legislation and was active in the HOD often running reference committees. I started on the BOG in 2012 but needed to resign in October 2013 due to my wife having cancer. I have known the leaders of the CSDA and have added my support to helping the Association since I started my practice in Norwalk.

I believe at this point my experience as an involved member of the CSDA with experience on councils and committees as well as the BOG prepares me well for being Vice President. I have sold my practice to a young talented oral surgeon, and I am now working half time. I have the time needed to do the work of a vice president.

My time through the last 30 years has given me experience; my time with my partner, referrals in my practice and young members on councils, committees and the BOG has taught me the millennials have a different point of view which is good and is our future.

My goal at this point in my career is to give guidance but also to listen to what the younger generation needs and makes sense for their association and their careers as dental professionals. I know I have the vision, wisdom, and acceptance to allow the CSDA to grow organized dentistry into the future.

Kevin McLaughlin
